

CAWEB Master's Distance-Learning Degree

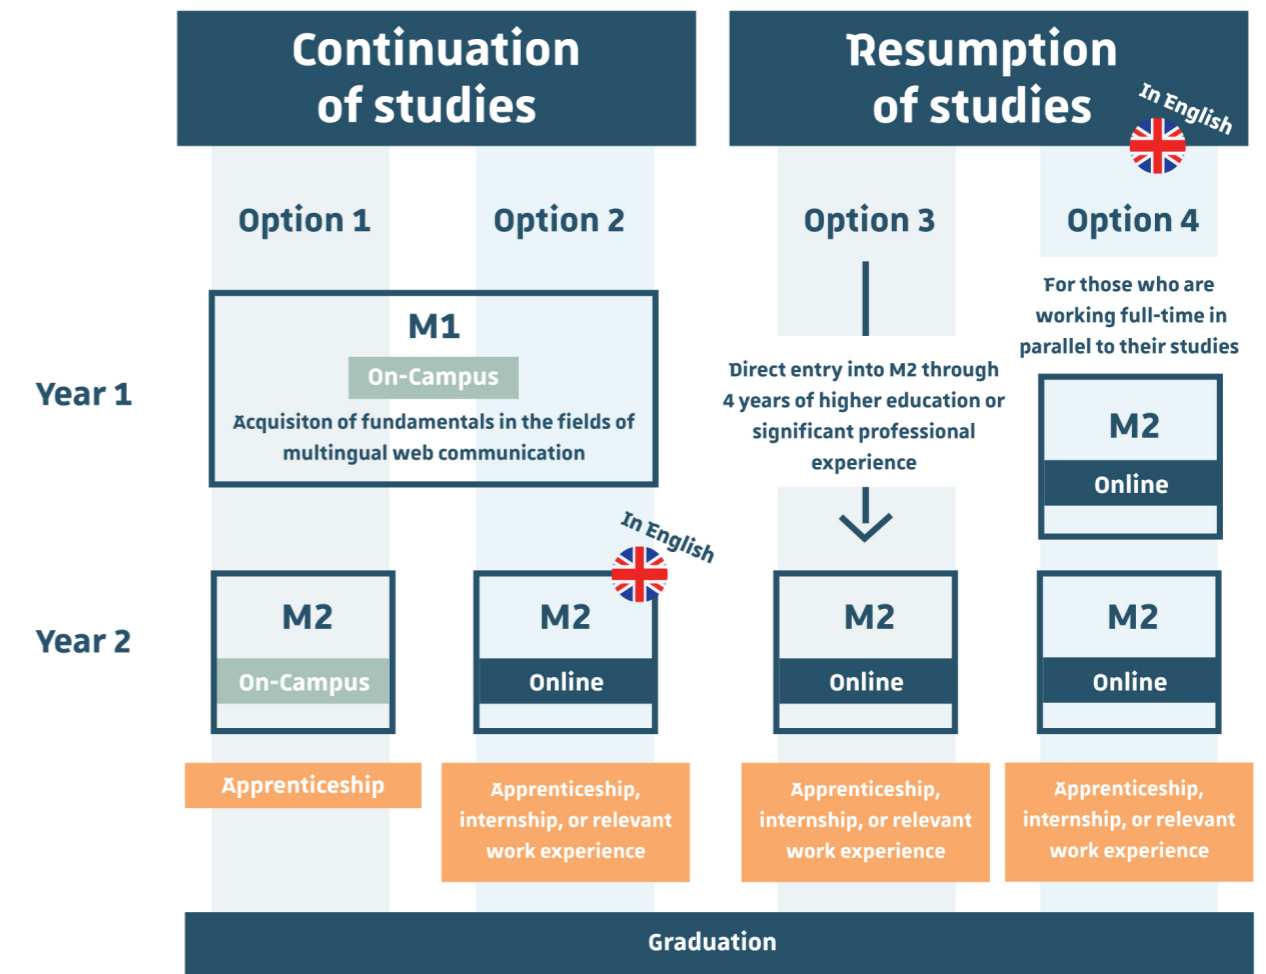

CAWEB's distance-learning degree is designed for recent graduates who have a degree equivalent to 4-years of higher education or working professionals who are looking to resume their studies. The program demands a high level of English as well as organization and time management skills. Above all, a strong interest in one of the master's fields is required of each applicant!

Fields of the Master's Degree:

- 1  Foreign languages
- 2  Digital marketing, search engine optimization (SEO)
- 3  Translation/localization
- 4  Creation and management of multilingual websites
- 5  Web project management
- 6  Visual communication

With the CAWEB master's, you can earn your degree from anywhere in the world and choose the study option that best suits you!

Complete the distance-learning program in 1 or 2 years

The CAWEB master's created a distance-learning program taught exclusively in English that can be completed in one or two years, perfect for those of you who already have 4 years of higher education or professional experience! If you have a significant amount of time to dedicate to the program each week, you might want to complete the program in just 1 year. However, if you do not have a lot of free time to devote to the program due to other professional or personal commitments, the 2-year option is made for you! By choosing this format, you are able to spread the courses over two years instead of one.

Want to know more about the distance-learning program? Check out the [master's website!](#)
